

The Snow Pond Music Festival engages aspiring artists to develop, collaborate, and grow. Each summer world class performers and educators join forces to present specialized programming with the common mission of challenging and inspiring the next generation of musicians, educators and cultural ambassadors. SPMF attracts high-level college, graduate, and post-graduate level musicians from around the world.

At SPMF, participants immerse in music making in a uniquely nurturing and intimate environment. A strong foundation is provided to ignite the creative and critical mind; life-long friendships develop which will fuel future networking; and vital connections are made that will forge pathways for meaningful lives in the arts.

“I absolutely cherished this experience. Every day seemed like a week in terms of volume of hard work and growth that I was able to achieve. I’m at a much better place with myself as a player and person because of it.”
